

# Clan Otiolo

**Spoilers ahead, proceed with caution**

“ Not much is known of the history of the Otiolo clan. The only contact between the Itani Otiolo and the Sollan Empire was during the [Vorgossos](#) affair as recorded in this text. Aside from military reports made by members of the [437th Centaurine Legion](#) and members of [Strategos Hauptmann](#)’s staff, [Lord Marlowe](#)’s record is the only one touching on the clan at all—and is at any rate the most comprehensive. Piecing together what we can from the available sources, it seems that the clan Otiolo was a young, fairly minor tribe. Marlowe’s text says the Prince Aranata took its people “out of Utaiharo.” This suggests that [Prince Aranata](#) defeated another prince in combat and took his tribe for his own, making him the first chieftain of the Itani Otiolo, as any Cielcin who kills an Aeta becomes an Aeta. Such short-lived clans appear to have been common among the Cielcin, their being a species of tyrants (which explains the necessity of the Baetan class, who appear to maintain the continuity of the tribe as it changes hands and identities as it moves from Aeta to Aeta. Not much else is known of this particular clan, any primary documents and artifacts having been lost in the annihilation of the [Bahali imnal Akura](#) during Strategos Hauptmann’s offensive.
