Se Vattayu, the homeworld of the Cielcin, has never been found. The Pale are a nomadic race, long since having abandoned any attempts to settle other worlds. Preferring instead to live in migratory clusters of starships that move from system to system in their constant forage for meat and resources, they have never stopped for long. Each fleet is its own nation bound together by blood and absolute subservience to their clan chiefs, the Aeta. For centuries, these countless tribes have assailed human space and the Sollan Empire in particular, pillaging without plan.
