

# ISV Tempest

Flagship of the [409th Centaurine Legion](#) commanded by Tribune [BASSANDER LIN](#). Filled with a 12,000-man compliment and 18,000 soldiers in fugue.

“ The great battleship was perhaps only half the size of the [Tamerlane](#), but where the *Tamerlane* had been built to store tens of thousands, the *Tempest* was all hardware: wing upon wing of lightercraft waited in banks above launch tubes that fluted the lower hull. Fully one fifth of the *Tempest*’s nearly twelve-thousand-man compliment were aquilarii, the pilots of small lightercraft. The *Tempest* was designed to siege planets, to launch thousands of bombers and to bombard shielded targets from orbit.

*Ashes of Man*, Chapter 21: Of Dragons
